

ACADEMIC & PERSONAL GOALS

One of the most important components of both college and life long success is learning to identify and establish goals. By identifying your short and long term goals you give yourself something to work toward, which often makes it easier to stay motivated.

Take a few minutes and answer the following questions.

What are the reasons you are attending college?

What short-term goals have you set for yourself?

What steps will you need to take to reach these short-term goals?

What long-term goals have you set for yourself?

What steps will you need to take to reach these long-term goals?

How can you use your plan of action to meet your goals?
